INTRODUCTION

In accordance with Camden County School Board of Education Policy IB-R, a course of study guide shall be printed and approved every year.

The purpose of the guide is for use as a curriculum point of reference for educators, parents, and interested citizens. This point of reference, yearly revised, can be used to keep appropriate personnel apprised of the continually changing materials in curriculum.

SECTION II

SEX EDUCATION WRITTEN & AUDIO VISUAL PROCEDURES

SEX EDUCATION WRITTEN & AUDIO VISUAL PROCEDURES

The following procedures shall be in effect regarding sex education:

1. Each school's principal will submit copies of all written and audio visual materials that he/she is requesting to use in sex education classes to the designated assistant superintendent by the end of the last week in January of each year.

2. The sex education committee shall review all materials that are proposed for use and make recommendations to the superintendent to be presented at the March board meeting in the Course of Study.

3. The committee shall be comprised of a non-teaching parent representative from each school; an elementary, middle, and high school professional educator; two health professionals; four community representatives; and one male and one female student currently attending the 11th or 10th grade.

4. The superintendent or superintendent's designee will request nominations from the following groups as needed.

Category	No. Of Nominees	Nominations Submitted By:
Non teaching parents	3	Each school's parent organization
Professional educators	3	Each school principal
11 th or 10 th grade students	4	High school principal
Health professionals	5	Local medical association
Community members	5	County commissioners
	5	Each city council

5. The superintendent shall recommend to the board of education a sex education committee including alternative choices.

6. The sex education committee will meet at least annually to review the sex education curriculum materials. The committee will also make recommendations concerning the use of the materials to the board of education. The assistant superintendent will chair the committee.

7. Principals shall notify parents through written communication that:
 - a. Sex education will be taught in specified courses;

 - b. All instructional materials to be used, print and non-print, may be reviewed in a designated location of the school;

 - c. Parents may choose to exclude their child/children from the sex education and AIDS prevention instructional program; and

 - d. Students who do not participate in the sex education and AIDS prevention instructional program will receive an alternate assignment. The assignment will be completed in a location other than the regular classroom.

8. Principals shall establish a method by which parents will notify the school if they request their child/children be excluded from the sex education and AIDS prevention instructional program. Accurate records of such requests should be kept on file in the principal's office.

SECTION III

TEXTBOOK ADOPTION PLAN

“Local school systems shall annually update and have on file in the superintendent’s office an implementation plan for the adoption of textbooks which is based upon the most recent state adoption for the given subject area(s).” (Rule 160-4-4-40)

A. State Textbook Adoption Cycle

B. Subjects In Which Textbooks Are Not Assigned

A. Georgia Textbook/Instructional Materials Recommendation Cycle

Per House Bill 739, the GA Department of Education recommendation process for instructional materials and content is optional. Responsibility has been released to the local school system to develop a review and recommendation process for instructional materials and content.

The projected schedule of local recommendation cycle is as follows but may be adjusted per changes in the state curriculum:

- **2022-2023 K-12 Science
K-12 Health & Physical Education**
- **2023-2024 K-12 Social Studies
K-12 Fine Arts**
- **2024-2025 Grades 6-12 Career, Technical & Agricultural Education**
- **2025-2026 K-12 Mathematics**
- **2026-2027 K-12 English/Language Arts**
- **2027-2028 K-12 Foreign/Modern Languages & Latin
K-12 ESOL**

Notes:

- 1. Dictionaries are also adopted with English language arts and foreign language.**
- 2. Atlases and map skill kits are also adopted with social studies.**

APPROVED CURRICULUM GUIDES

- A. Approved Curriculum Guides**
- B. Timeline for Completion**
- C. Lost Textbooks**
- D. Textbook Disposal**
- E. Procedure for Designation of Textbook Committee**
- F. Evaluation and Recommendation Procedures**

A. Georgia Textbook/Instructional Materials Recommendation Program

Georgia's Legislative Provision of 1937, known as the Free Textbook Law, directed the Georgia Board of Education to provide textbooks for use in the elementary, middle, and high schools. Georgia Code provides that the "Georgia Board of Education is authorized to prescribe, by regulation, the definition of the term "textbook" to include but not be limited to "systematically designed instructional material in any medium, print or non-print, that constitutes the principal source of study for or directly enhances the instruction of a state-funded course" and to prescribe the textbooks to be used in the various grades in the public schools of this state, including the elementary grades and high school grades. The state board may provide, by regulation, for multiple listings of books for use in the various grades and may, in its discretion, authorize the county school superintendents or the superintendents of independent school systems to exercise a choice between books so listed or adopted for any particular grade."
(20-2-1010)

In order that the core instructional materials are of the highest quality, the state board has established procedures for evaluating and recommending textbooks in state-funded courses (Georgia Board of Education Rules 160-4-4-.10 and 160-4-4-.20). Each year publishers of record are given notice of courses and grade levels for which textbooks will be recommended. The notice includes dates for the recommendation cycle and process and other directives regarding information to be submitted. Interested publishers are provided complete recommendation information from the department of education including requirements for submitting bids, forms to be completed, regulations and deadlines.

Annually, the State Board of Education appoints committees to serve in an advisory capacity, coordinating the evaluation of texts submitted for recommendation in specified subject areas and making recommendations to the board for textbooks to be state recommended. The State Textbook Advisory Committees consist of professional educators and lay members, appointed from each congressional district and the state at-large.

During the summer, the State Textbook Advisory Committees coordinate evaluations of all titles submitted by publishers. The committees then meet in July to recommend to the state board those titles that meet predetermined criteria. There are no numerical restrictions regarding the number of titles to be selected for state recommendation. The determining factor governing recommendation is instructional quality. The recommended list of textbooks is submitted to the State Board of Education for state recommendation, normally at its September or October meeting. A list of these recommended textbooks is then prepared and distributed to Georgia school systems by January.

B. Timeline for Completion

Georgia State Law requires that each Georgia School System “shall implement textbook adoptions from textbooks listings prescribed by the State Board....within 18 months of the time said textbook listings are provided by the State Board.” (OCGA 20-2-168)

The Textbook Adoption Committee will present its recommendation to the superintendent of schools prior to the March school board meeting.

The superintendent will make a recommendation to the Camden County School Board at the March meeting.

C. Lost Textbooks

Textbooks are issued to students by teachers of individual subjects. The condition of the book and book number are recorded at the time the book is issued. **The student assumes responsibility for the book at the time of issuance. Students who lose a textbook will not be issued a new textbook until the lost textbook is paid for.**

When a student loses a book, the amount to be charged will be as follows:

**First Year: Excellent= full price
Second Year: Good= 5/6 of full price
Third and fourth Year: Fair= ½ full price
Fifth and Sixth Year: Poor=1/3 full price**

A damage fee will be collected when a book is mishandled and mistreated to the extent that it causes a book to lose more value than it would through normal wear and tear. Books damaged beyond use will be charged full price according to the year of issuance.

LOST/DAMAGED BOOK POLICY FROM THE DUAL ENROLLMENT REGULATIONS

The Eligible Postsecondary Institution is permitted to charge Dual Enrollment recipient a fine for a lost or damaged book which was loaned to the student.

The Dual Enrollment student will be responsible for paying textbook replacement costs for lost or damaged books.

D. Textbook Disposal

Textbooks that were purchased with state funds will be sold to used textbook companies or other interested parties by the bid process. Unusable books will be sold to paper recyclers if possible.

If books cannot be disposed of by the two methods listed above, they may be given to non-profit agencies or taken to the local landfill and buried.

E. Procedure for Designation of Textbook Committee

When appropriate the subject area committee will serve as the textbook adoption committee. It will organize and lead the textbook adoption process. When deemed not appropriate, each school will recommend a predetermined number* of teachers to the curriculum department for the textbook adoption committee. This committee will be charged with doing an intensive evaluation of the designated subject area and an evaluation of current textbooks.

*Number based on the needs for a particular subject area.

F. Evaluation and Recommendation Procedure

The Textbook Committee will evaluate available textbooks and narrow the selection process down to a maximum of three publishers per series.

These three series will be evaluated by all teachers who teach this subject. Evaluations will be returned to the textbook committee members who will then select the top-rated publisher for each grade level or subject. For most subjects books will be adopted K-5, 6-8, and for individual subjects at the high school.

However, the textbook committee has the option of recommending whatever arrangement it feels is most appropriate.

The following criteria will be used to select the textbook to be recommended.

CRITERIA FOR TEXTBOOK ADOPTIONS

The Camden County School System will use the accompanying criteria for the evaluation of textbooks. In order to address local community concerns and needs, committee members are representative of each individual school. In addition, the membership is representative of parents, the board of education, teachers, and administrators.

All text materials used in the classroom should arouse curiosity and interest, should stimulate thinking, should promote the exercise of the independent judgment, should furnish reliable and accurate basic information and should complement other instructional materials pertinent to the curriculum area being studied.

If applicable to the subject area being considered, the following criteria are to be used in evaluating each textbook submitted for adoption. In addition to the general criteria, specific criteria are to be used in evaluating text material in the individual subject areas.

I. CONTENT

A. General

- 1. Are the content and the sequence of the materials reasonably consistent with the current State guides and other curriculum publications developed by the State Department of Education and the goals of the State Board of Education?**
- 2. Does the program follow the Georgia Standards of Excellence with minimal fallouts noted?**
- 3. Is there provision for individual differences in the sequential arrangement?**
- 4. Is the subject matter meaningful in terms of pupil needs, experiences, interests, and understandings for the age and grade level intended?**
- 5. Is there a program for vocabulary and other communication skills development?**
- 6. If the text suggests activities, are they functional, based on research in the field and significant to youth?**
- 7. Does the book include suggestions which will assist the teacher and student in evaluating progress?**

B. Illustrations

1. Are the illustrations sufficiently abundant, properly labeled, accurate, appropriate, and easily interpreted?
2. Do the illustrations extend and enrich the content of the verbal text?
3. Are there charts, diagrams, and other pictorial materials appropriate to the content of the text and to the age level of the pupils using it?

C. Instructional Aids

1. Are teacher aids, either in the text itself or in a teacher's manual, provided?
2. Are sources for additional reading and audio-visual resources suggested?
3. Will the glossary, footnotes, charts, maps, pictures, and tests aid pupils and teachers in using the book effectively?
4. Does the book have accompanying audio-visual aids including, software, filmstrips, films, tapes, and overhead transparencies?

II. ORGANIZATION

- a. Is the text organized to facilitate correlation with other subject areas and suggestions made for such correlations?
- b. Are topics organized to stimulate learners with varying intellects?
- c. Does the book lend itself to a variety of methods and teaching techniques? To adjustment of individual needs?
- d. If the book is part of a series, is there a balance in type of organization and approach?
- e. Does the book provide suggestions for the teacher?

III. AUTHORSHIP

- a. Is there evidence that findings of valid research and evaluation have gone into the development of the publication?

- b. Is the point of view, philosophy, or purpose of the book clearly stated?**
- c. Are conclusions or opinions stated by the author drawn from facts clearly stated in the text?**
- d. Does the author's point of view in this text tend to emphasize those social attitudes, understandings, and ideals characteristic of our American way of life?**
- e. Have the authors and/or consultants demonstrated expertise on the particular level and in the subject area being considered?**

Material recommended by the committee should then reflect and insure, but not limited to:

- (1) the best overall quality of material available**
- (2) suitability to grade level**
- (3) adaptability to the various ability and reading levels**
- (4) adequate variety of quality materials**
- (5) human dignity**
- (6) humanness**
- (7) understanding of other points of view**
- (8) appreciation of nature**

The inclusion of any of the following or similar material in an otherwise acceptable high quality text makes it "unacceptable" for adoption for purchasing with State textbook funds:

- (1) any theme or statement that is derogatory to the democratic process**
- (2) ridicule of ethnic groups, races, or religions**
- (3) non-sensitivity to individual worth, talents, abilities, or aspirations**
- (4) portrayal of human stereotypes or sex bias**
- (5) social unrest promoted as a tool for anarchistic goals and activity**
